

WOLF MULTISPRAY

11/08/2023
55564

This is a high-quality lubricant based on mineral oils and PTFE. Resistant to seawater and applicable in a broad temperature range: -50°C and 250°C.

APPLICATIONS

It is suitable for a wide application range, like lubrication of nylon bearings, chains, brake cables, and bolts. It can also be used for the protection of electrical contacts and switch materials against soil, humidity and corrosion.

FEATURES

Anti-wear and oxidation stability: adequate protection of systems
Protection of systems: Excellent lubricating capacities

PERFORMANCE

/ /

TYPICAL CHARACTERISTICS

Test	Method	Unit	Average results
Flash Point COC	ASTM D92	°C	<-60
Density at 20°C	ASTM D4052	g/ml	0.710
Colour	VISUAL		Yellow brown

We reserve the right to alter the general characteristics of our products in order to let our customers benefit of the latest technical evolutions.
